25X1A6D

1. The attached memorandum to the Director of Communications from [redacted] is self-explanatory.

2. My original thought in connection with this matter was to let a contract for services rather than change the personnel concerned from "staff" to "contract" status. However, in my judgment even this would be a better arrangement than the one we have now. In any case, you are requested to undertake a study of this matter at your earliest convenience, coordinating as appropriate with the Directors of Security, Personnel, and Communications, the General Counsel and the Comptroller. The objective is to effect a saving in personnel and/or to remove as many personnel as possible from our ceiling.

/s/

L. K. White  
Deputy Director
